### BEDEO TECHNOLOGY PREMIERES AT THE COMMERCIAL VEHICLE SHOW

State-of-the-art electric vehicle technology from electric vehicle manufacturer BEDEO will be an integral part of the new Vauxhall Movano-e world premiere at this month's Commercial Vehicle Show held at the Birmingham NEC. Following an agreement with the Stellantis Group announced last year, established manufacturer BEDEO now supplies electric drivetrains across Europe for the new Vauxhall Movano-E models as well as Peugeot e-Boxer and Citroën ë-Relay models.
